Independent Auditor's Report

Board of Trustees
Physician Associate Foundation
of the American Academy of Physician Associates

Opinion

We have audited the financial statements of Physician Associate Foundation of the American Academy of Physician Associates (PA Foundation), which comprise the statements of financial position as of December 31, 2024 and 2023, the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the PA Foundation as of December 31, 2024 and 2023, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the PA Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the PA Foundation's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the PA Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the PA Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Physician Associate Foundation of the American Academy of Physician Associates

Notes to Financial Statements

Note 1. Nature of Activities and Significant Accounting Policies

Nature of activities: The Physician Associate Foundation of the American Academy of Physician Associates (PA Foundation), is a nonprofit organization established in 1978, and operates exclusively for charitable, educational, research and community-based purposes. The PA Foundation is organized as the philanthropic arm of the American Academy of Physician Associates (AAPA), a tax-exempt organization whose mission is to ensure the professional growth, personal excellence and recognition of physician associates, and to support their efforts to enable them to improve the quality, accessibility and cost-effectiveness of patient-centered health care. The PA Foundation's mission is to develop and allocate resources that empower the physician associates (PA) profession to impact the health and wellness of communities it serves.

A summary of the PA Foundation's significant accounting policies follows:

Basis of presentation: The financial statement presentation follows the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). As required by the Non-Profit Entities Topic of the FASB ASC, the PA Foundation is required to report information regarding its financial position and activities according to two classes of net assets: net assets without donor restrictions and net assets with donor restrictions.

Net assets without donor restrictions: Net assets without donor restrictions include those net assets whose use is not restricted by donors.

Net assets with donor restrictions: Net assets with donor restrictions consist of assets whose use is limited by donor-imposed time and/or purpose restrictions. Endowment net assets with donor restrictions include a stipulation that assets provided be maintained in perpetuity while permitting the PA Foundation to expend the income generated by the assets in accordance with the provisions of additional donor-imposed stipulations.

Income taxes: The PA Foundation is organized as a nonprofit corporation and has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Internal Revenue Code (IRC) Section 501(a) as an organization described in IRC Section 501(c)(3), qualifies for the charitable contribution deduction under IRC Section 10(b)(1)(A)(viii), and has been determined not to be a private foundation under IRC Section 509(a)(3). The PA Foundation is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and cash equivalents: For financial statement purposes, the PA Foundation considers demand accounts and highly liquid investment instruments purchased with an original maturity of three months or less to be cash equivalents.

Investments: Investments with readily determinable fair values are reflected at fair value. The change in the fair value of investments, interest and dividends and realized and unrealized gains and losses are included in investment income in the accompanying statements of activities.

Financial risk: The PA Foundation maintains its cash in bank deposit accounts that, at times, may exceed federally insured limits. The PA Foundation has not experienced any losses in such accounts. The PA Foundation believes it is not exposed to any significant financial risk on cash.

Physician Associate Foundation of the American Academy of Physician Associates

Notes to Financial Statements

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

The PA Foundation invests funds in professionally managed portfolios that are exposed to various risks, such as interest rate, credit and market value risk. Due to the level of risk associated with such investments, and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risks in the near term would materially affect investment balances and the amount reported in the financial statements. As a result, investment balances reported in the accompanying financial statements may not be reflective of the portfolio's value during subsequent periods.

Contributions receivable: Receivables are contribution amounts for promises to give, less an estimate made for doubtful receivables based on a review of all outstanding amounts. All receivables are due within the coming year. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts receivable. Receivables are written off when deemed uncollectible. Recoveries of receivables previously written off are recorded when received. There is no provision for doubtful accounts at December 31, 2024 and 2023, as management believes that all receivables are fully collectible.

Contributions and grants: Contributions and grants include unconditional contributions from individuals and various organizations. Revenue is recognized when an unconditional donation is received or when an unconditional promise is made.

Unconditional contributions and grants are recorded as with donor restrictions or without donor restrictions, depending upon the existence and/or nature of any donor intent. Support that is not restricted by the donor is reported as an increase in net assets without donor restrictions. Donor-restricted support is reported as an increase in net assets with donor restrictions and then reclassified to net assets without donor restrictions when the restriction expires.

Conditional gifts, with measurable performance or other barrier and right of return are not recognized until the conditions on which they depend are substantially met or explicitly waived by the donor. Conditional gifts that are received prior to the conditions being met are recorded as refundable advances on the statements of financial position. Grants on a cost-reimbursement basis are recognized as revenue as costs qualified under the grants are incurred and conditions are met.

Contribution of nonfinancial assets: Contributions of nonfinancial assets are recognized as contributions if the services: (a) create or enhance nonfinancial assets or (b) require specialized skills, are performed by people with those skills and would otherwise be purchased by the PA Foundation. Contributions of nonfinancial assets are recorded at their estimated fair value at the date of donation.

Functional allocation of expense: The costs of providing various program and supporting services have been summarized on a functional basis in the accompanying statements of activities. Accordingly, costs primarily associated with personnel have been allocated among the program and supporting services on the basis of the labor costs utilized by each area. Other costs are allocated on the basis of the direct expenses of the program and supporting services.

Subsequent events: The PA Foundation has evaluated subsequent events through April 30, 2025, the date on which the financial statements were available to be issued.

Physician Associate Foundation of the American Academy of Physician Associates

Notes to Financial Statements

Note 2. Liquidity and Availability

The PA Foundation regularly monitors liquidity required to meet its annual operating needs and other contractual commitments, while also striving to maximize the return on investment of its funds not required for annual operations. As of December 31, 2024 and 2023, the following financial assets are available within one year to meet cash needs for general expenditures:

	2024	2023
Financial assets:		
Cash and cash equivalents	\$ 570,752	\$ 260,806
Investments	1,966,816	1,842,494
Contributions receivable and other assets	24,680	187,000
Financial assets	2,562,248	2,290,300
Less contractual or donor-imposed restrictions making financial assets unavailable for general expenditure:		
Net assets with donor restrictions less endowments	(438,164)	(927,037)
Financial assets available to meet cash needs for general expenditures within one year	<u>\$ 2,124,084</u>	<u>\$ 1,363,263</u>

Note 3. Investments

Investments are classified on the statements of financial position as of December 31, 2024 and 2023, as follows:

	2024	2023
Investments	\$ 1,966,816	\$ 1,842,494
Investments held for endowment	2,363,158	2,216,828
	<u>\$ 4,329,974</u>	<u>\$ 4,059,322</u>

In accordance with U.S. GAAP, the PA Foundation uses the following prioritized input levels to measure fair value of financial instruments. The input levels used for valuing investments are not necessarily an indication of risk.

Level 1: Observable inputs that reflect quoted prices for identical assets or liabilities in active markets, such as stock quotes.

Level 2: Includes inputs other than Level 1 inputs that are directly or indirectly observable in the marketplace, such as yield curves or other market data.

Level 3: Unobservable inputs which reflect the PA Foundation's assessment of the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, such as bid/ask spreads and liquidity discounts.

Investments recorded at fair value include mutual funds and exchange-traded funds which are all valued using Level 1 inputs based on quoted prices for identical assets in active markets. Management believes the estimated fair values on investments to be a reasonable approximation of their exit price. Money market funds are recorded at cost.

	<u>\$ 214,705</u>	<u>\$ 238,907</u>	<u>\$ 453,612</u>

Note 4. Related-Party Transactions and Contributed Nonfinancial Assets

AAPA provides services and other support to the PA Foundation. These expenses include salaries and related benefits of AAPA employees devoting time and effort working for the PA Foundation, allocable rent, utilities, office equipment and other general administrative expenses, such as financial accounting and reporting. Accordingly, the services and other support are recorded as donated services to the PA Foundation. For the years ended December 31, 2024 and 2023, approximately \$214,000 and \$180,000, respectively, was donated to the PA Foundation by AAPA and are included in contributions of nonfinancial assets and program and supporting service expenses in the accompanying statements of activities. In addition, AAPA contributed cash to PA Foundation in the amount of \$110,000 and \$240,000 for the years ended December 31, 2024 and 2023, respectively.

Endowment fund descriptions: The PA Foundation has received contributions permanently restricted by donors for the following purposes:

PAF General Endowment Fund: This fund was established by individual and corporate contributions for the general scholarship program. Income from these contributions support annual scholarships.

Robert K. Pedersen Global Outreach Endowment: The Pedersen Family Foundation established this endowment in 2005 with an initial amount of \$100,000, and the Pedersen family has continued to contribute to this endowment. The income from this endowment provides grants to support projects that involve PAs or PA students in an international setting.

W. Marquart Scholarship Endowment: This endowment was established in 2020 with an initial amount of \$200,000. The income from this endowment provides scholarships and fellowships recognizing PA students and practicing PAs dedicated to working with patients in communities lacking access to adequate health care providers and services.

Nebraska Endowment Fund: Nebraska Academy of Physician Assistants established this endowment fund from Nebraska PA Foundation to the PA Foundation in 2009. The income from this endowment fund is used to provide scholarships for students attending PA programs in Nebraska.

NCCPA Endowed Scholarship Fund: National Commission on Certification of Physician Assistants (NCCPA) contributed \$100,000 to create this endowment. The income from this endowment is used to fund scholarships granted as part of the general scholarship program.

The Jerald A. Breitman & Stephen J. Dorn Endowed Research Fellowship: In 1998, a donation of \$40,000 established this endowment fund. Income from this endowment fund assists in funding an annual \$3,000 research fellowship that provides financial assistance to a doctoral candidate whose dissertation contributes to research on the influence of physician associates in medical care.

LBGPA Endowment Fund: The Lesbian, Bisexual, Gay and Transgender Physician Assistant Caucus of the AAPA (LBGT PA) created this endowment. Income from this endowment is intended to support self-identified LBGT PA students to attend AAPA's Annual PA Conference.

Interpretation of relevant law: The management of the PA Foundation has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA), as enacted in the Commonwealth of Virginia, as requiring the preservation of the fair value of original donor-restricted endowment gifts as of the date of the gift, absent explicit donor stipulations to the contrary. As a result of this interpretation, the PA Foundation classifies as net assets with donor restrictions to be held in perpetuity: (a) the original value of cash gifts donated to endowment held in perpetuity and (b) the discounted value of future gifts promised to endowment held in perpetuity, net of allowance for uncollectible pledges. The remaining portion of donor-restricted endowment funds not classified in net assets with donor restrictions to be held in perpetuity is in net assets with donor restrictions—unappropriated income, until those amounts are appropriated for expenditure by the PA Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA.

In accordance with UPMIFA, the PA Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purposes of the foundation and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the foundation
- The investment policies of the foundation

Return objectives and risk parameters: The PA Foundation has an investment policy specific for its endowment funds, which is monitored by the Finance Committee of the Board of Trustees. The investment policy describes the objective for the funds and sets ranges for asset allocation. The objective of the endowment funds is to maintain the original principle, obtain a reasonable and competitive return on assets and to ensure a reasonable degree of liquidity, consistent with acceptance of prudent risk.

Strategies employed for achieving objectives: The investment objective of each endowment fund is to generate sufficient income to support its respective annual scholarship or grant. Investments held by endowment funds may include fixed income instruments with credit ratings BBB and higher, mutual funds and cash equivalents. These investments should exclude common stocks, short positions, private equity, commodities, options, securities not readily marketable, real estate, tax-exempt securities, leveraged transactions or non-U.S. dollar denominated securities, unless they are within a well-diversified mutual fund.

Spending policy and how the investment objectives relate to spending policy: Target amounts to be retained within each endowment are established during the annual budget process. PA Foundation staff disburses allowable funds for expenditures in accordance with donor stipulations. In establishing this policy, the PA Foundation considered the long-term expected return on its endowments. Accordingly, over the long term, the PA Foundation expects the current spending policy to allow the endowments to grow at a reasonable rate each year. This is consistent with the PA Foundation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth through new gifts and investment return.

Funds with deficiencies: From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor originally contributed as an endowment fund to the PA Foundation. Funds with deficiencies totaled \$946 and \$81,246 as of December 31, 2024 and 2023, respectively.
